

TRAINING

Product Owner Advanced

This exclusive training course is designed for experienced Product Owners who want to enhance their skills. It provides advanced capabilities of strategic product development, stakeholder management and Scrum processes. The training course specifically prepares participants for the Professional Scrum Product Owner 2 (PSPO 2) certification.

Content

- ✓ Advanced Scrum Principles and Kanban practices
- ✓ Strategic Management of the Product Backlog
- ✓ Maximizing Value with Economic Prioritization
- ✓ Metrics and KPIs for Measuring Product Success
- ✓ Scaling Scrum across Multiple Teams
- ✓ Data-driven Decisions with Evidence-Based Management (EBM)
- ✓ Advanced Stakeholder Management
- ✓ Exam Preparation for the Professional Scrum Product Owner II (PSPO II) Certification

Methodology

This training course combines theory with numerous practical exercises, case studies, and simulations. Participants will receive access to the training materials prior to the start.

Target Group

This training course is aimed for experienced Product Owners who want to further develop their skills and prepare for the PSPO II certification.

Prerequisites

A solid understanding of Scrum is recommended, as well as a few years of experience in an agile environment as a Product Owner. Ideally, the PSPO I certification has already been successfully completed.

Certification

After completing the training course, participants are well prepared for the PSPO II exam and can take the certification test. The exam fee for one attempt is included in the training course.
